LAPORAN PRAKTIKUM JARINGAN KOMPUTER

MODUL 5: DHCP SERVER DAN WEB SERVER

DISUSUN OLEH:

NAMA : ZAIMATUL UMMAH

NIM : L200190237

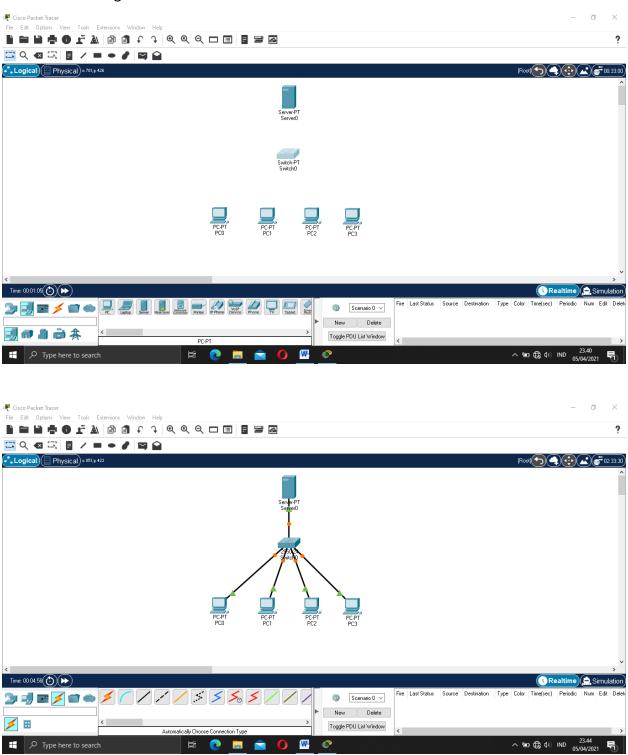

TEKNIK INFORMATIKA

FAKULTAS KOMUNIKASI DAN INFORMATIKA

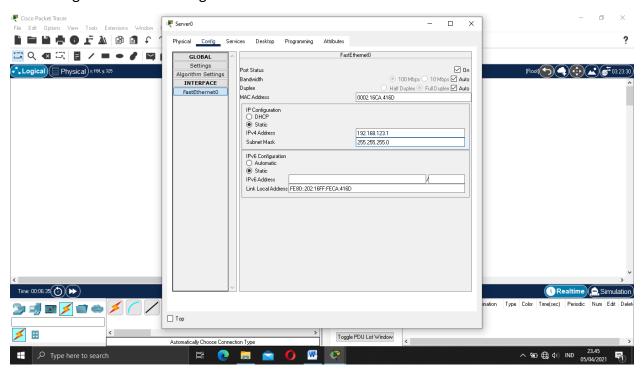

UNIVERSITAS MUHAMMADIYAH SURAKARTA

PRAKTIKUM 1. MEMBUAT DHCP SERVER

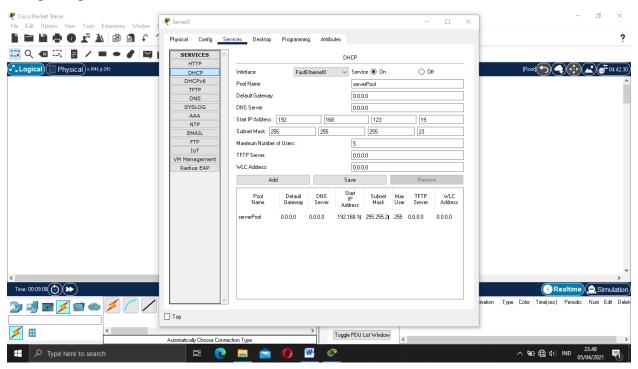

a. Membuat rancangan DHCP server

b. Menkonfigurasika server dengan IP addres server

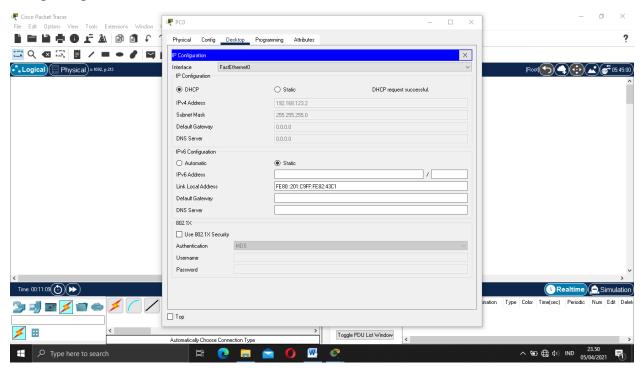

c. Mengkonfigurasikan DHCP server

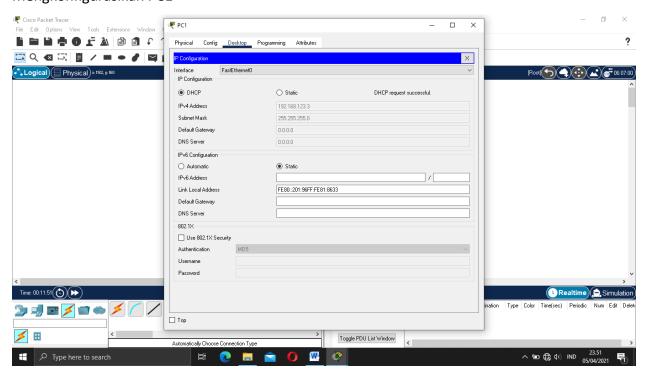

d. Mengkonfigurasi sisi clien

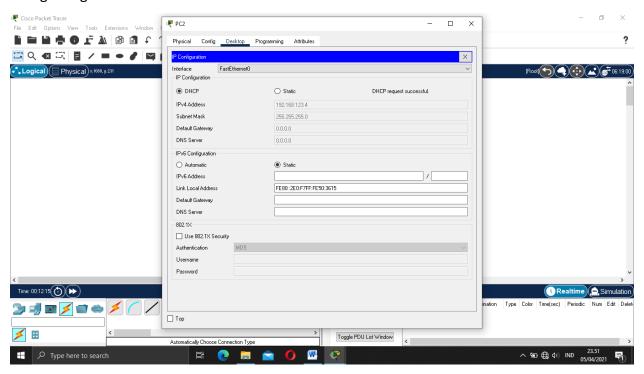

Mengkonfigurasikan PC0

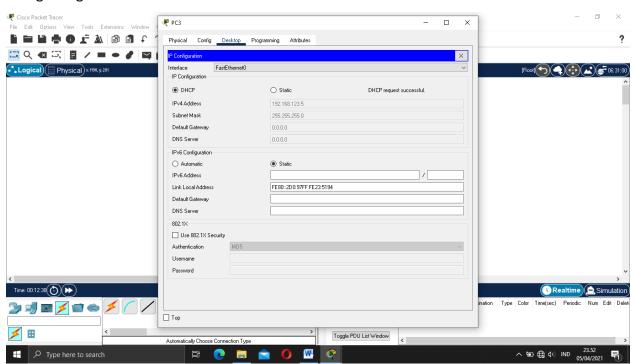

Mengkonfigurasikan PC1

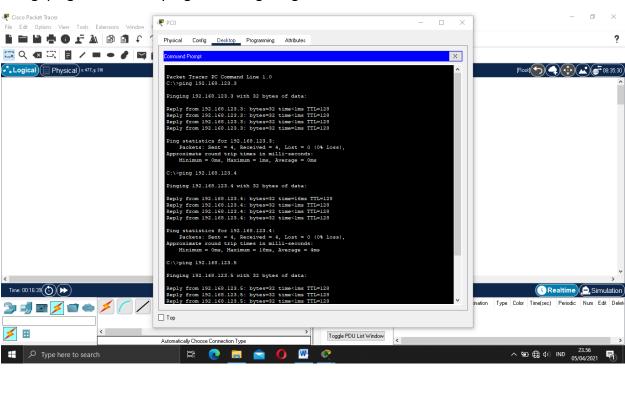

Mengkonfigurasikan PC2

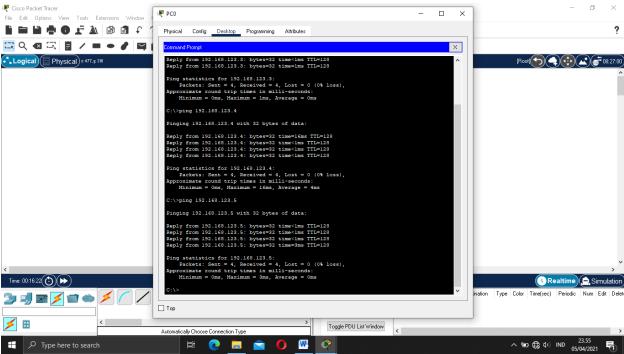

Mengkonfigurasikan PC3

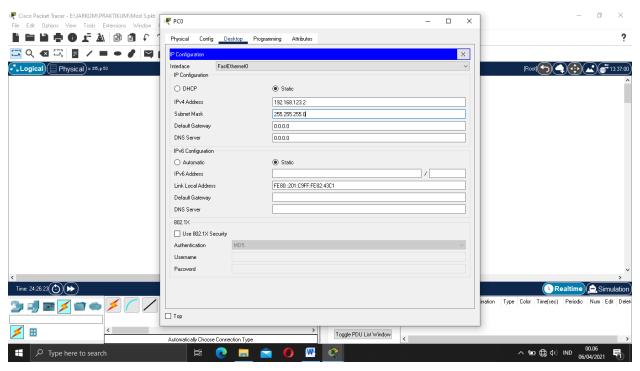

e. Mengeping kesemua PC yang terhubung dengan server DHCP

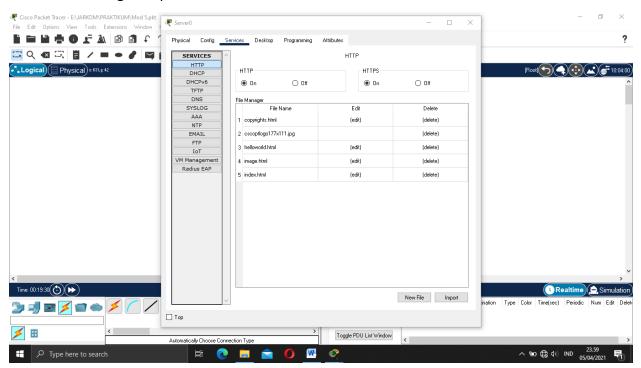

PRAKTIKUM 2. MEMBUAT WEB SERVER

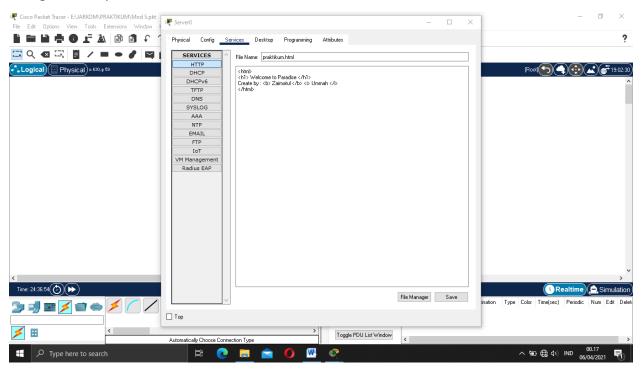

a. Mengkonfigurasikan IP addres pada PC 0

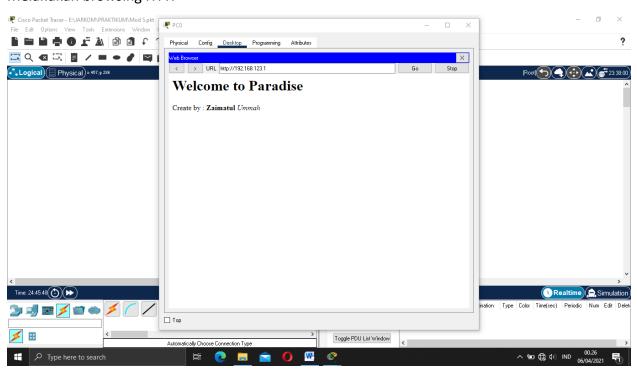

b. Melakukan konfigurasi pada server 0

c. Mengubah script HTML

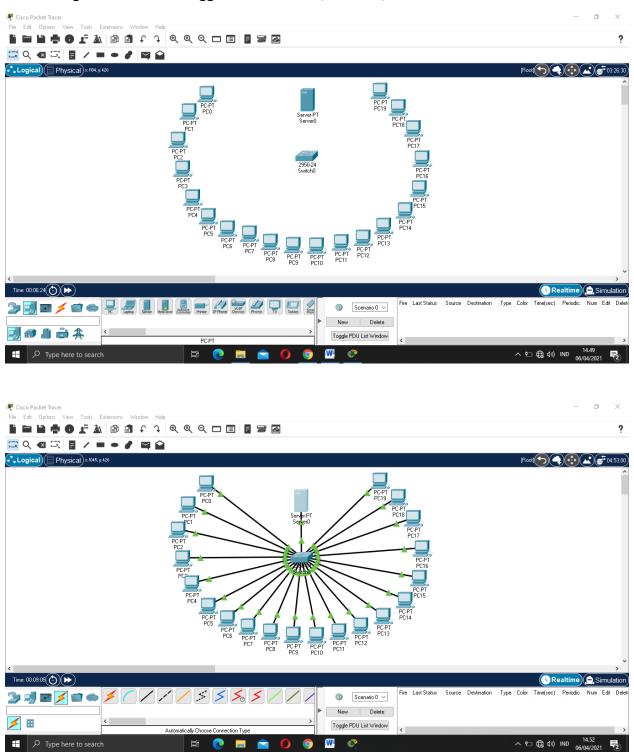

d. Melakukan browsing HTTP

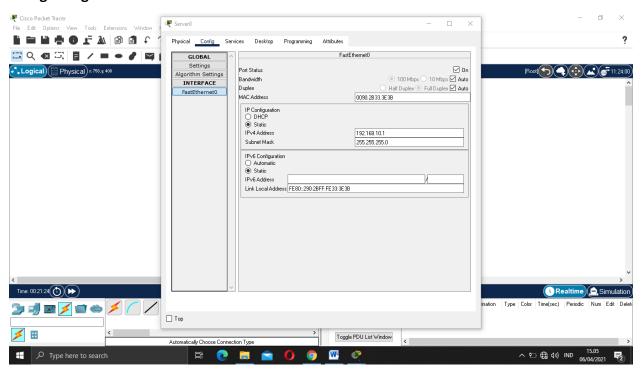

TUGAS

1. Buatlah DHCP server dengan packet tracer dengan client terdiri dari 20 PC

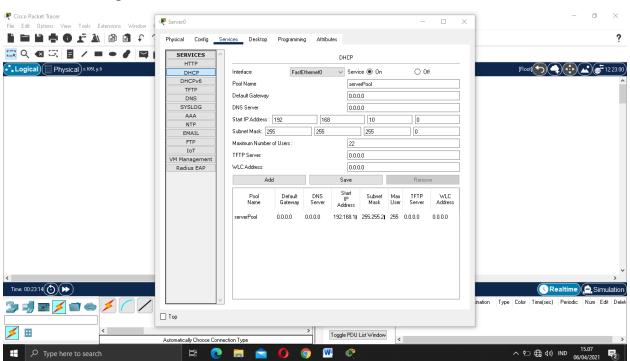

Merancang DHCP server menggunakan 1 switch, 1 server, dan 20 PC

Mengkonfigurasikan IP Address server 192.168.10.1

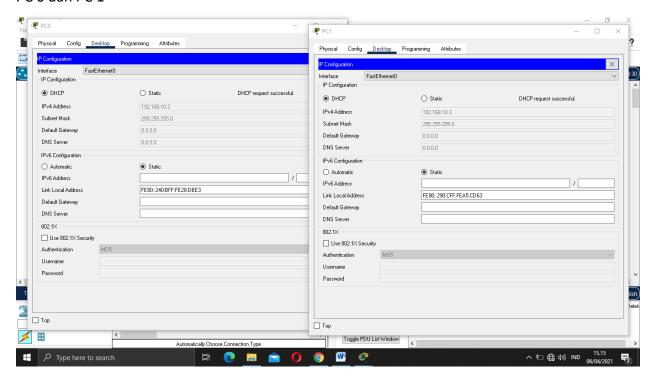

Melakukan konfigurasi DHCP server

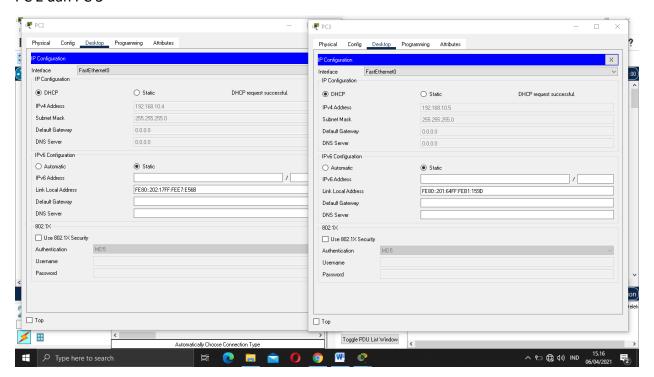

Selanjutnya, melakukan konfigurasi IP pada sisi client

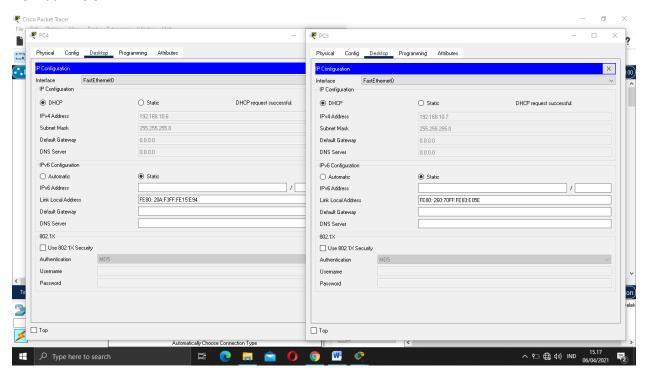

PC 0 dan PC 1

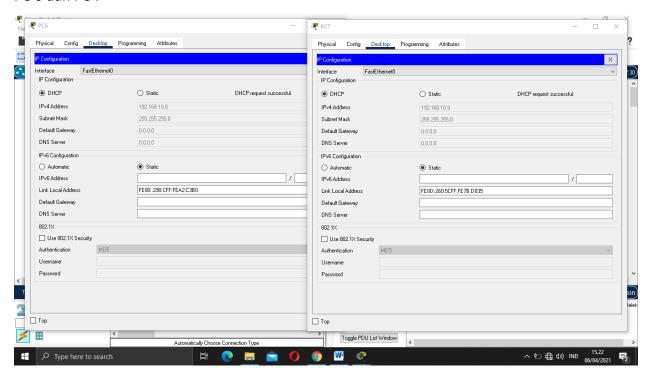

PC 2 dan PC 3

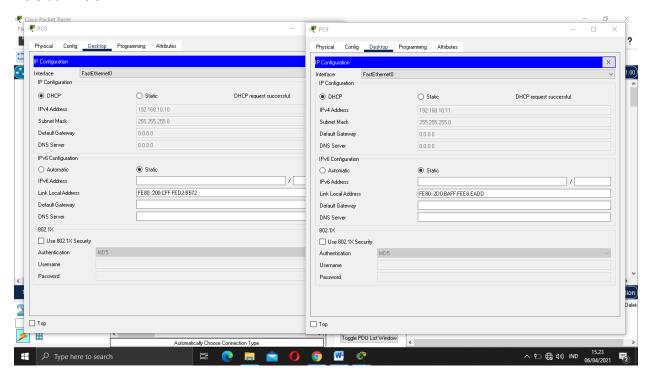

PC 4 dan PC 5

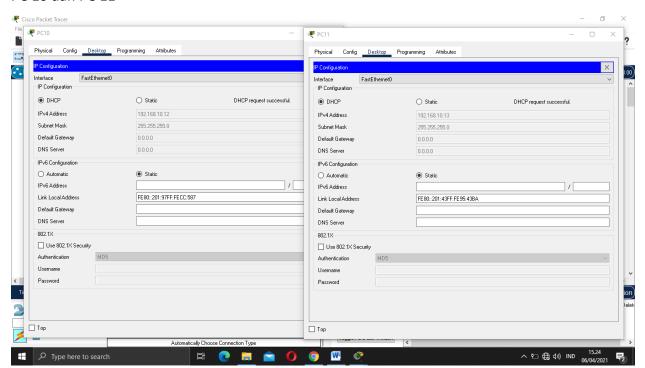

PC 6 dan PC 7

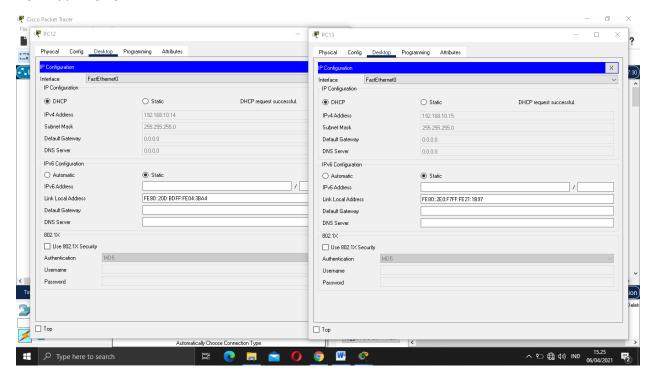

PC 8 dan PC 9

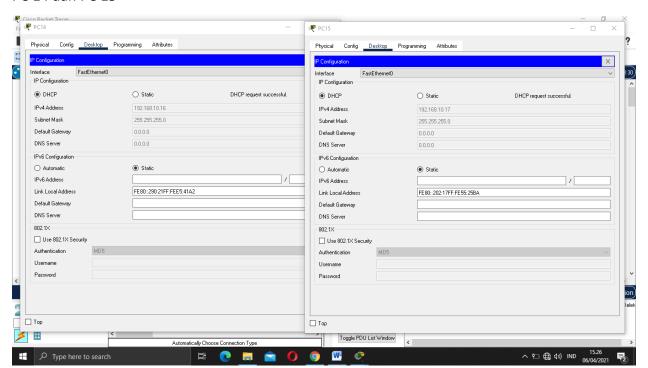

PC 10 dan PC 11

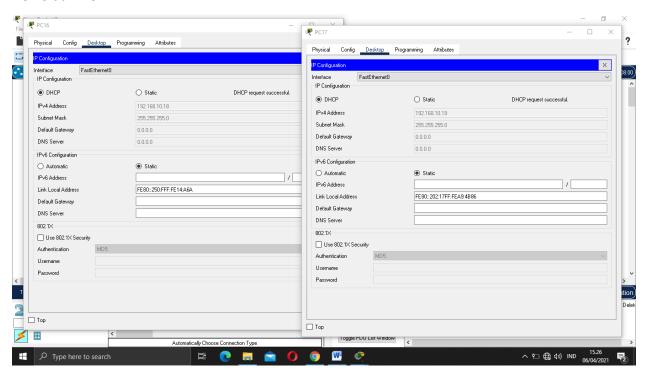

PC 12 dan PC 13

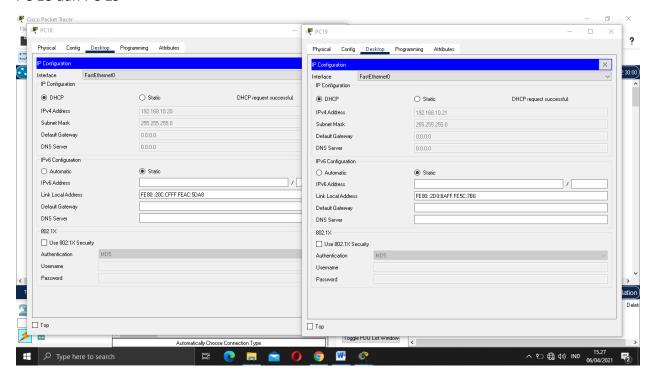

PC 14 dan PC 15

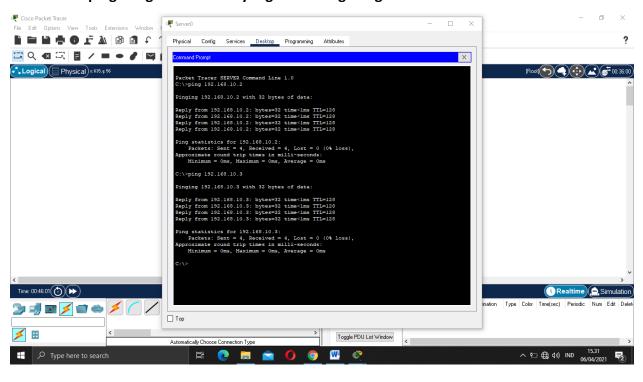

PC 16 dan PC 17

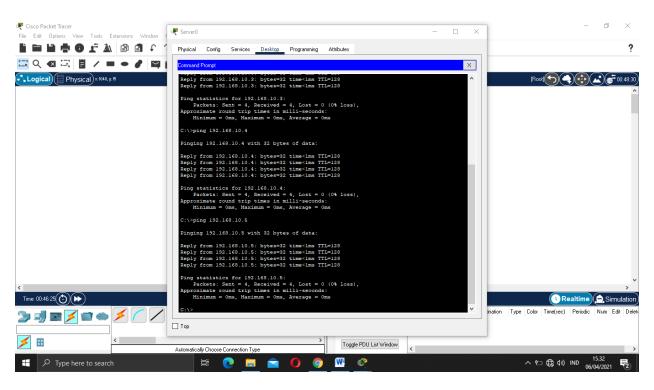

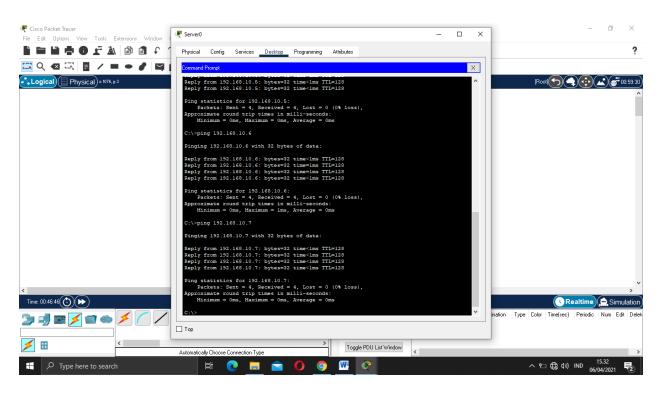

PC 18 dan PC 19

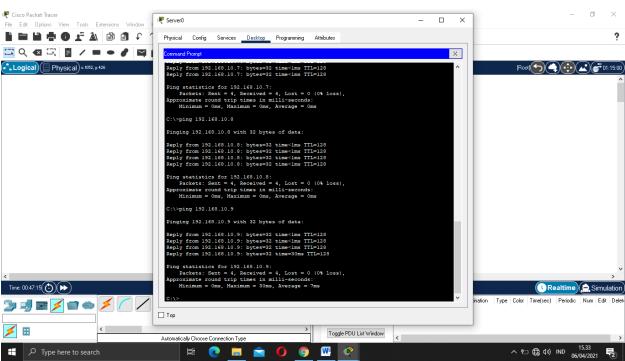

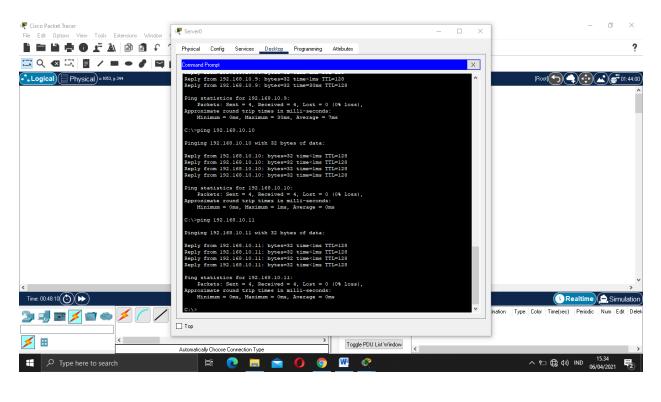

Melakukan ping dengan semua PC yang terhubung dengan server DHCP

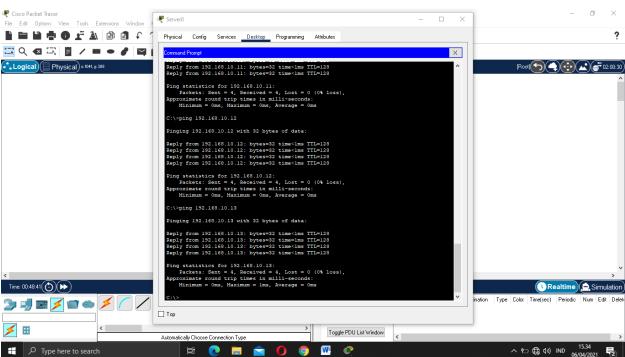

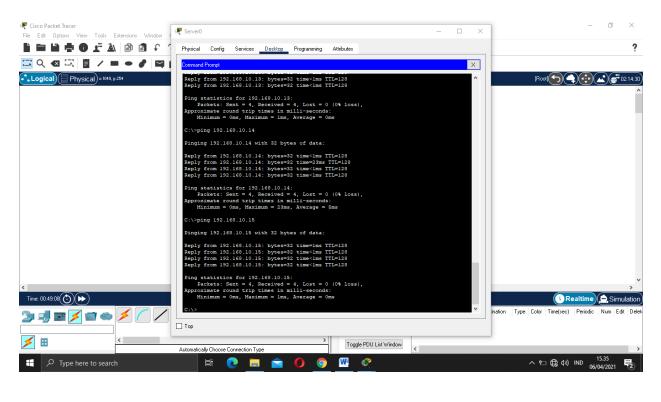

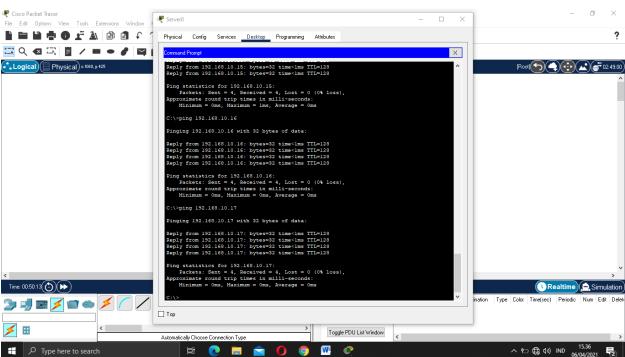

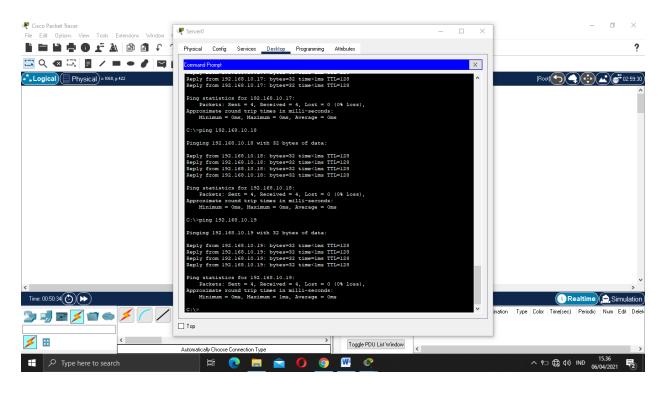

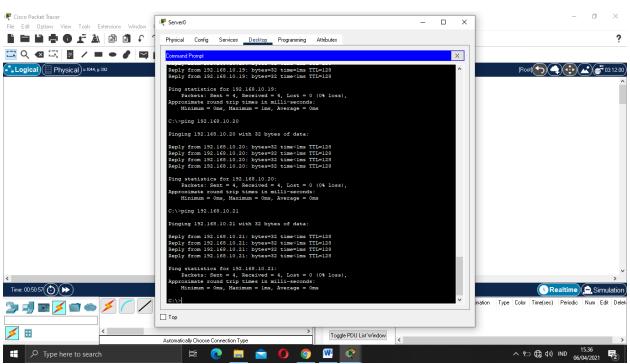

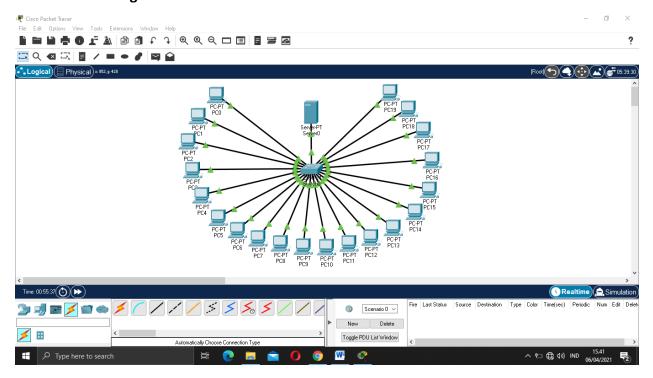

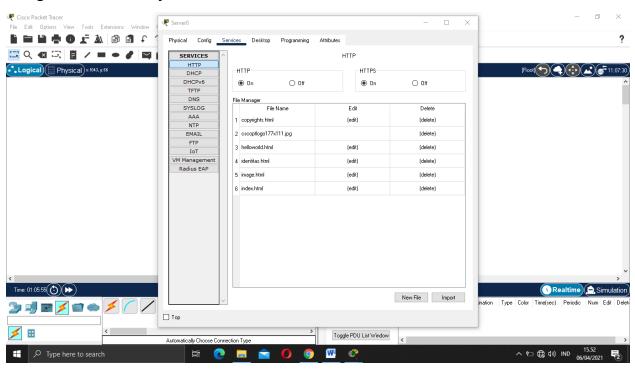

Buatlah web server pada packet tracer. Dengan mengubah tampilan pada web tersebut.
Dengan isi, nama, nim, alamat, jurusan, jenis kelamin

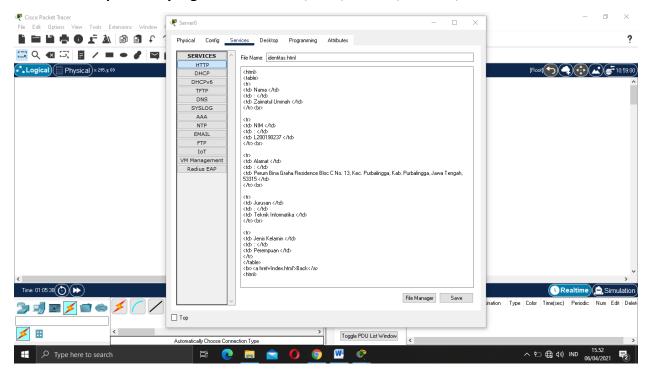

Membuat rancangan web server

Mengeset server mendjadi HTTP

Membuat script HTML yang berisikan Nama, NIM, Alamat, Jurusan, dan Jenis Kelamin

Melakukan browsing HTTP
